Mission Statement

The mission of the Metropolitan Police Department, City of St. Louis is to protect, serve and assist citizens when conditions arise that may affect the well being of the individual or the community. Cooperating with others in the community, officers will work to prevent and detect crime, protect life and property and achieve a peaceful society, free from the fear of crime and disorder. Members of the Department will strive continually for excellence and maintain the peace through service, integrity, leadership and fair treatment to all.

Law Enforcement Code of Ethics

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force of violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself to my chosen profession...law enforcement.

Core Values

SERVICE | INTEGRITY | LEADERSHIP | FAIR TREATMENT TO ALL

Message from Mayor

To the St. Louis Community:

The safety of our residents, businesses, visitors, and officers is my top priority. Thank you to the brave men and women who work tirelessly under difficult circumstances to make our neighborhoods safe and vibrant. Being a police officer is a special commitment. It means being faced with incredibly difficult decisions every day. It means you are expected to perform with professionalism and level-headedness in high pressure environments. Thank you to the men and women of the St. Louis Metropolitan Police Department for meeting that challenge.

We continue to actively recruit new police officers. During 2018, we graduated 75 officers from the academy. This year, two new professional recruiters have joined our team - both privately funded. We know that the residency requirement in the City's Charter is an impediment to some candidates. In September of 2018, I used an executive order to waive this requirement for 50 officers. This is a stopgap measure, not a permanent solution. I have asked the Board of Aldermen to ask voters to change the Charter and repeal the residence requirement.

Last July, each officer received a salary increase of \$6,000, thanks to the voters' support for Prop P.

We know that public safety isn't just about policing. We have also increased funding for summer jobs, recreation, after-school activities, affordable housing, and demolition.

In 2018, Chief Hayden outlined a high-need area, now known as "Hayden's Rectangle." Special forces were deployed and violent crime was significantly reduced. In 2019, Hayden's strategy is being utilized in two new areas of the City - Downtown and the Dutchtown area. We know that by increasing our focus on the most violent and high crime areas, we can have significant impact on the lives of residents.

The Annual Report reminds me that our officers are handling a tremendous number of calls and situations every day. As mayor, I continue to support and empower our officers. That means working to provide a fully staffed police department, up-to-date equipment, and pursuing crime reduction programs elsewhere to prevent crime before it happens.

Sincerely,

Lyda Krewson
Mayor, City of St. Louis

Message from Police Commissioner

Dear Citizens:

When I initiated my crime plans for 2018, I promised citizens that I would focus on violent crime, and I designated a “Violence Reduction Zone” in North St. Louis known as the “Hayden’s Rectangle”. This area covers some, if not all, of Fairground, Fairground Park, Kingsway East, Kingsway West, Mark Twain, Mark Twain/I-70 Industrial, O’Fallon, Penrose, Penrose Park, The Greater Ville, The Ville, Walnut Park East, Walnut Park West, and Wells/Goodfellow. These areas were strategically chosen after research showed that they contributed largely to the overall violent crime in the City. No resources were taken from any district and placed in another. The resources used in this zone were comprised of specialized units that supplemented the patrols already in that area and addressed specific crime trends/issues. At the

end of 2018, the area within the “rectangle” experienced 23 less Homicides, 77 less Robberies, and 113 less Aggravated Assaults with a Firearm, leading to an overall drop over 18% in the rectangle. “Total Person Crime” throughout the entire City also dropped over 14% contributing to a drop in “Total Overall Crime” of over 6%.

In addition to the “Violence Reduction Zone”, our Department noticed an increase in armed carjackings not only within the City of St. Louis, but across the region in the end of 2017. To address this issue, our Department spearheaded the creation of the Metro Carjacking Task Force. This multi-jurisdictional group including local and federal partners was able to streamline the information-sharing between agencies and has assisted us in intelligence-lead policing when investigating carjackings. While we did not factor “carjackings” out of our “Robbery” numbers until January of 2018, we did see a 25% drop in robberies city-wide last year. I would be remissed if I did not attribute some of the overall crime drop in the City to the success of these two strategies.

In the end of 2018, I announced two additional “Crime Reduction Zones” to be implemented in 2019. These target areas will bring his total zones to three (including his original “rectangle” in North St. Louis). Along with the deployment of our specialized units, I hope to coordinate technologies within our Real Time Crime Center through the integration of additional and existing cameras owned by businesses in the downtown area.

I believe that addressing the specific issues in these designated areas will again assist us in dropping the overall crime rate, including gun crime, and making the City of St. Louis a safer place to live and visit.

A handwritten signature in black ink that reads "John W. Hayden Jr." The signature is written in a cursive style.

NEWS STORIES

NEWS
STORIES
2018

Chief John Hayden's Mobile Office

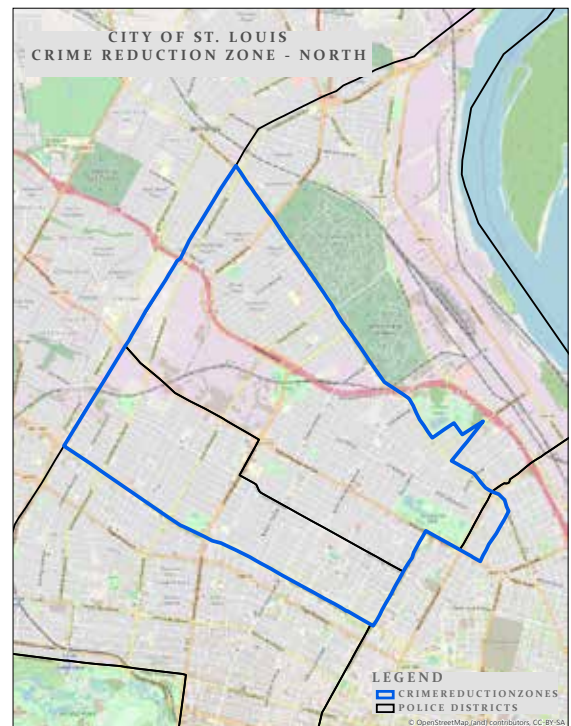

In 2018, Colonel John W. Hayden revamped his efforts of addressing crime through community engagement by rolling out Chief Hayden's Mobile Office. Originally known as the Fifth District Mobile Office, Col. Hayden vowed to continue the mission he began as Captain of the Fifth District.

"I think it's a good concept that I think may be a magnet for much more community engagement," Hayden told the St. Louis Post-Dispatch in March 2018. "It's really all about non-enforcement activities that we can get involved in and we will be able to bridge the trust gap that we acknowledge. And once we do that, we'll get more calls and cooperation on investigations."

Violence Reduction Zone - "Hayden's Rectangle"

In January 2018, Colonel John W. Hayden introduced Hayden's Rectangle, also known as the Violence Reduction Zone, to combat crime in the City's most challenging areas. The rectangle stretches across 14 neighborhoods and includes over 47,000 people. At the end of 2018, the area within the "rectangle" experienced a 24.47% drop in homicides, 22.99% drop in robberies, and a 15.69% drop in aggravated assaults with a firearm, resulting in an overall drop of 18.54% in the "rectangle".

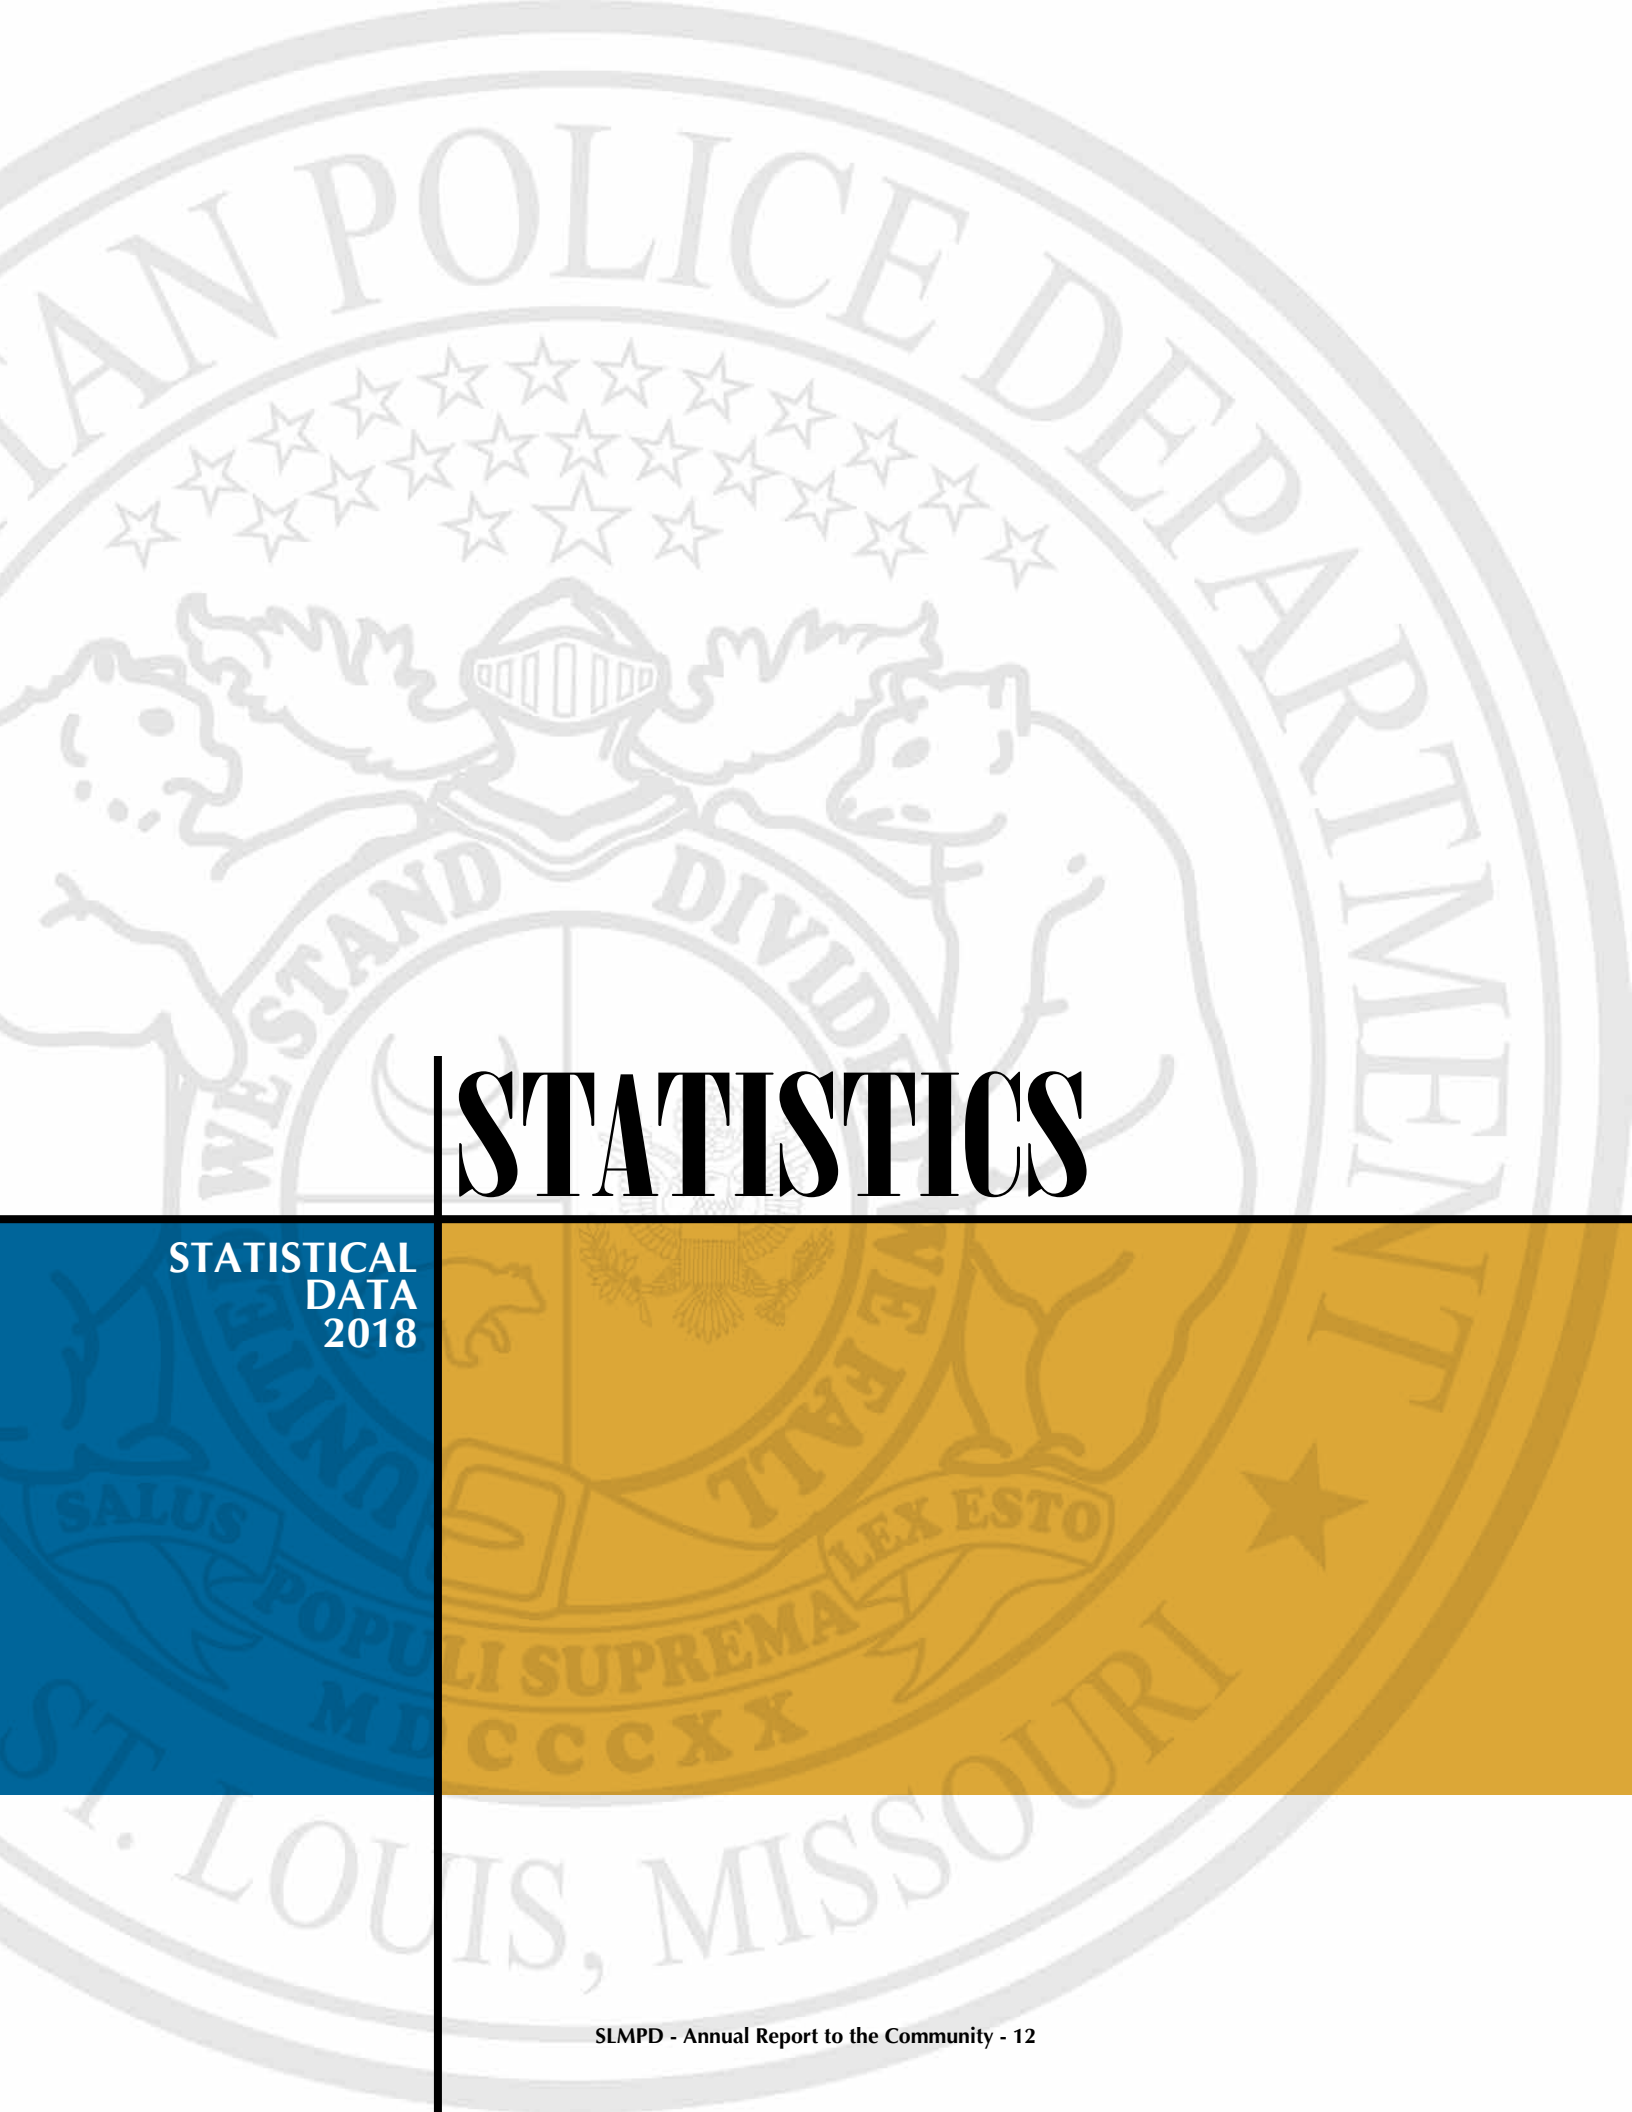

SLMPD Revives Cadet Program; Signs MOU with Harris-Stowe State University

In July 2018, the St. Louis Metropolitan Police Department reintroduced its Police Cadet program for individuals between the ages of 18 and 20 ½ with an interest in law enforcement. On November 13, 2018, Harris-Stowe State University signed an MOU with the department to assist with hiring recruits. Students participating in the department’s Cadet Program can receive up to 27 hours of college credit from Harris-Stowe upon completing the program.

HOMICIDE

HOMICIDE
PRESENTATION
2018

Executive Summary - Homicides

Homicide Count:

- 2018 Homicide Total – 187

Homicide Demographics:

- 87% of the victims were Male.
- 83% of the victims were African-American.
- 39% of homicide victims were aged 20 – 29.
- 42% of homicide victims were African-American males between the ages of 17 and 29.
- 128 (68%) of victims had a criminal history (vs. 87% in 2017).
- 29% Of Known Homicide Suspects have an arrest history (vs. 86% in 2017).

Geographic Areas Affected

- 33% of homicides occurred in District 6. 26% of homicides occurred in District 5.
- 74% of homicides occurred in half of the city's 6 districts.

Top Homicide Circumstances:

- Unknown—58%
- Argument/Fight—23%
- Robbery – 7%
- Drugs – 4%

Typical Homicide Summary

- **Homicide Victim & Suspect**
 - Male
 - African – American
 - 20 – 39 years of age
 - has a criminal history

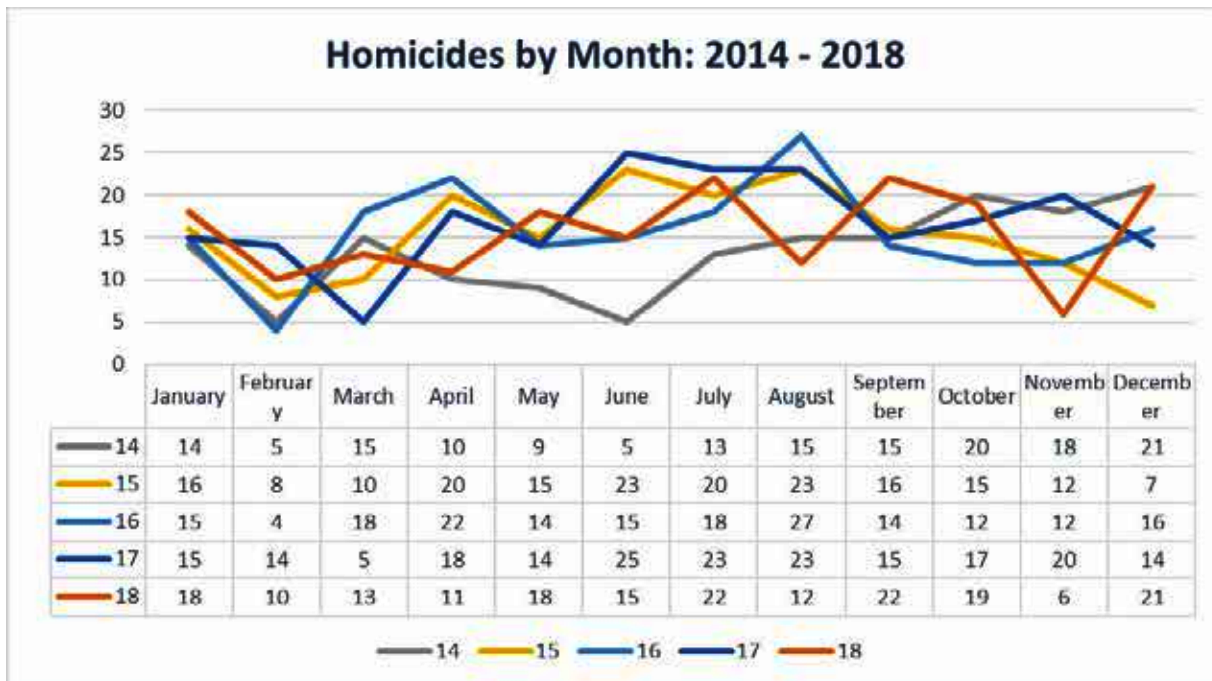

Counting Homicides: Temporal Analysis

	2017	2018	% Change
January	15	18	20%
February	14	10	-29%
March	5	13	160%
April	18	11	-39%
May	14	18	29%
June	25	15	-40%
July	25	22	-12%
August	23	12	-48%
September	15	22	47%
October	17	19	12%
November	20	6	-70%
December	14	21	50%
Grand Total	205	187	-9%

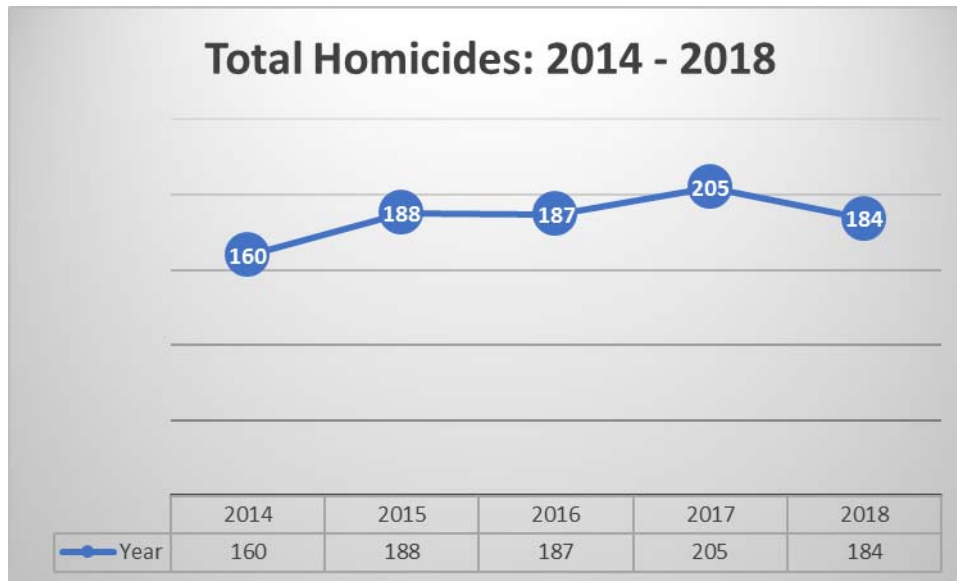

Counting Homicides:

The F.B.I Uniform Crime Reporting Program (UCR) establishes all guidelines and procedures for the submission of crime data to the State UCR Program Coordinator (State Police). Murders are counted at the time that Homicide Investigators have determined that, after investigation, an intentional killing of a human being by another has occurred. Clearances of murders occur when at least one person suspected of committing the murder is taken into police custody for prosecution. Clearance is counted by the month that the suspect is taken into custody. While the official homicide statistics, shown in the table on this page, counts homicides by the date they were coded (for example, if a person is fatally injured in one year, but succumbs to their injury in the following year, the homicide is officially counted in the year of death, and not the year of injury), the remainder of statistics in this report will not reflect those numbers, but rather only reflect those murders that occurred within that calendar year.

It is important to understand that UCR allows adjustments (e.g. clearances, reclassification, unfounded, etc.) from previous submitted months to be made the month that the adjustment becomes known to police.

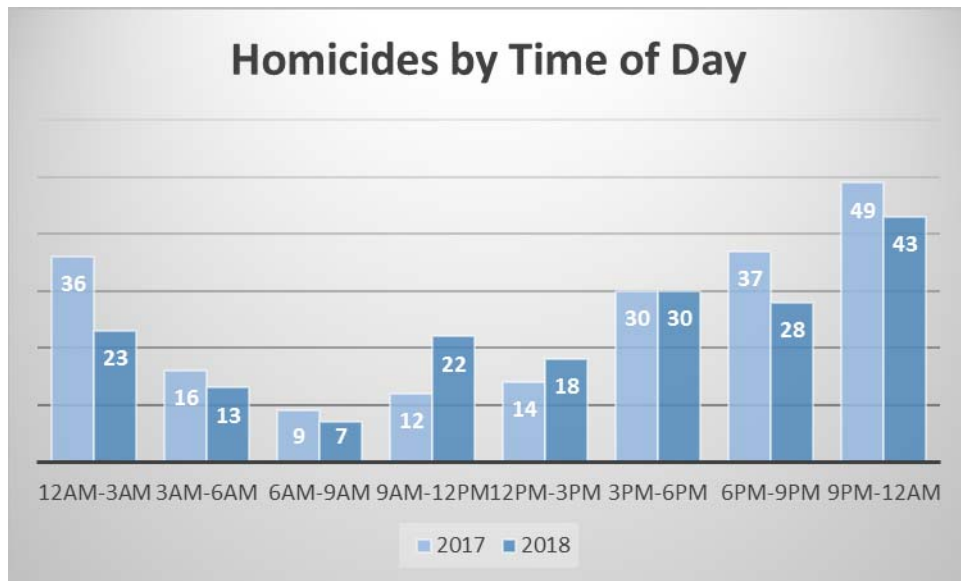

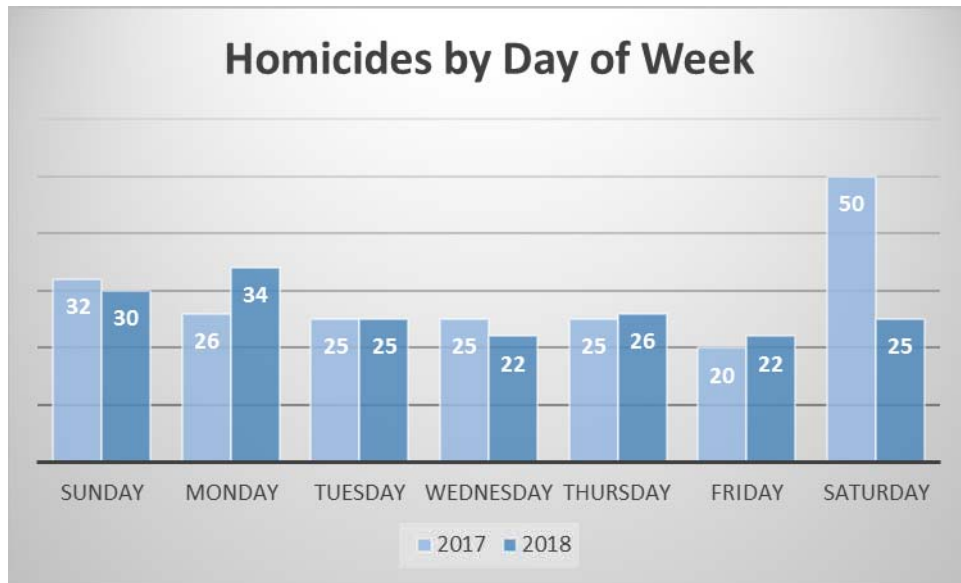

Counting Homicides: Temporal Analysis

RECAP

- The graphs above show the monthly, and annual, City of St. Louis homicide numbers since 2014.
- Crime victims may succumb to their injuries months or years after the incident. These figures include those victims who were injured in one year and died in another.
- While many crimes show seasonal changes, in the City of St. Louis, it does not appear that seasonality has direct effects on homicide.
- While we are able to look at homicide clearances by both the date the offender was arrested, regardless of when the homicide occurred (Month Coded), and by the date the homicide occurred, regardless of when the arrest was effected (Date of Occurrence) the official statistics, per UCR rules, are the Month Coded numbers.

Counting Homicides: Temporal Analysis

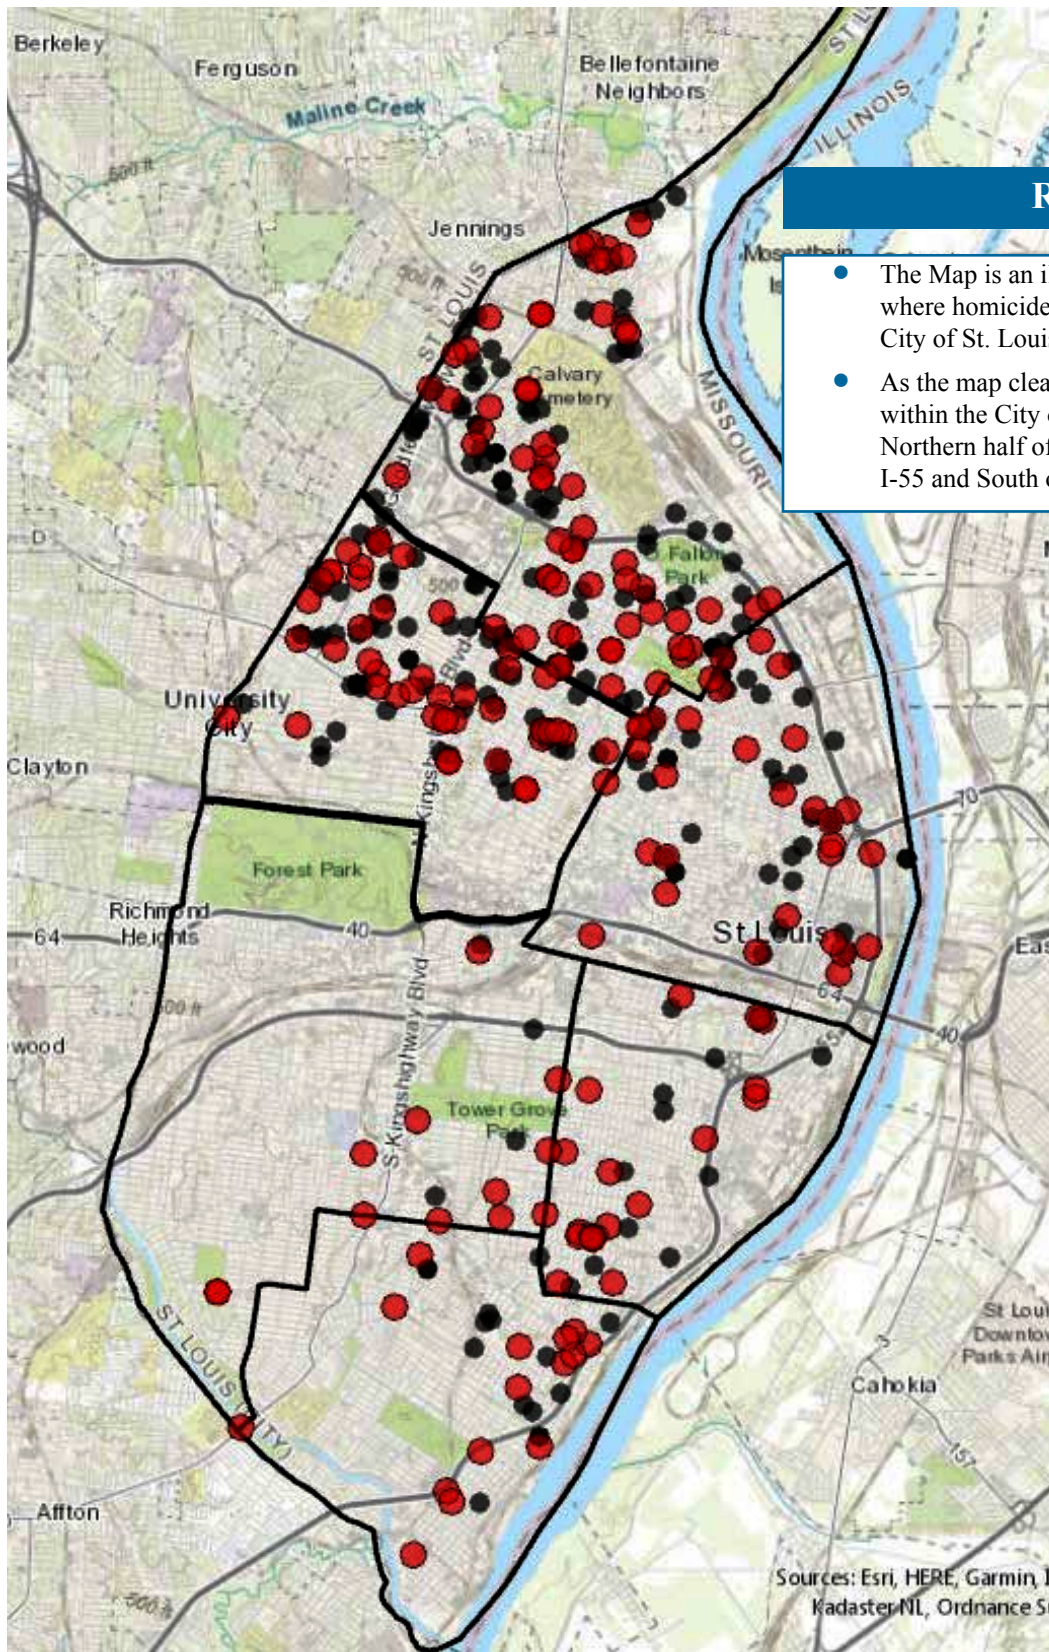

RECAP

- Unlike previous years, Saturday stood out as a particularly violent day last year, though that appears to have gone back to "normal" in 2018.
- There is a clear pattern when it comes to time of day, with the period between 9 pm and 3 am being the most likely hours for a homicide to occur, totally 42% of this previous year's homicides.

The Geography of Homicide

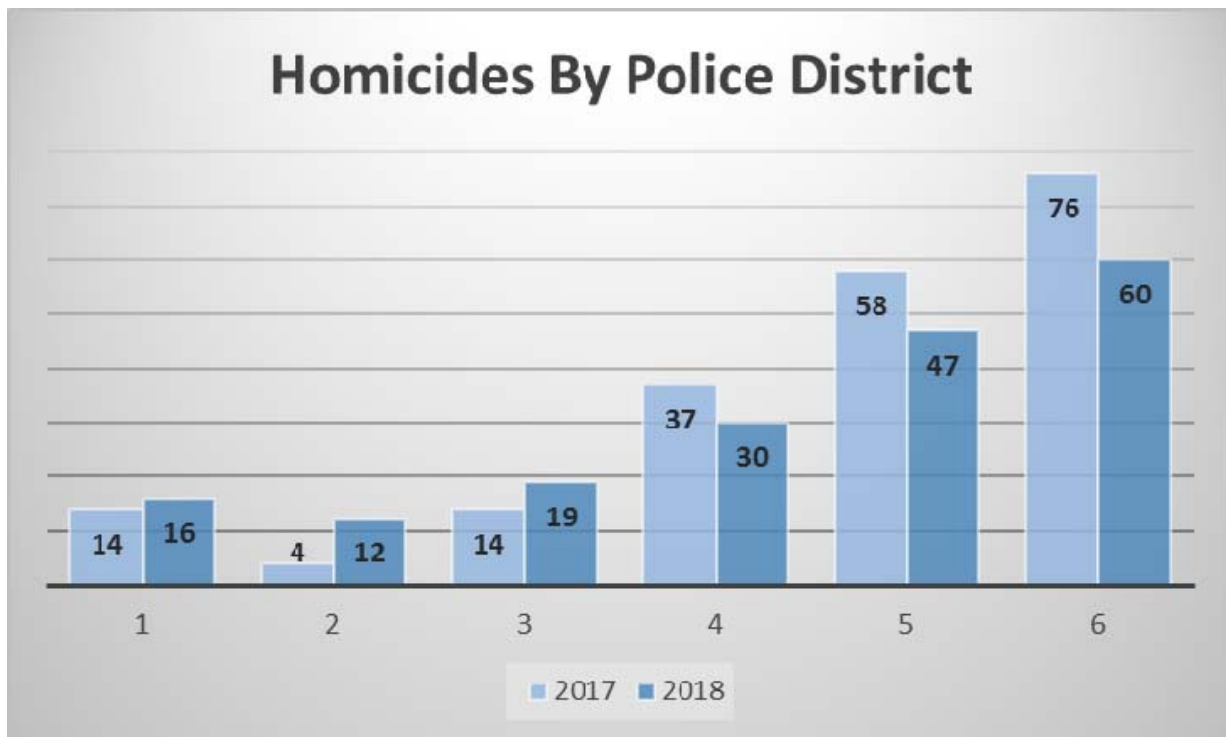

RECAP

- The Map is an illustration of the locations where homicides have occurred within the City of St. Louis over the previous two years.
- As the map clearly illustrates, homicides within the City of St. Louis cluster to the Northern half of the city, and just West of I-55 and South of I-44 in South St. Louis.

Sources: Esri, HERE, Garmin, In
Mastaster-NL, Ordnance Su

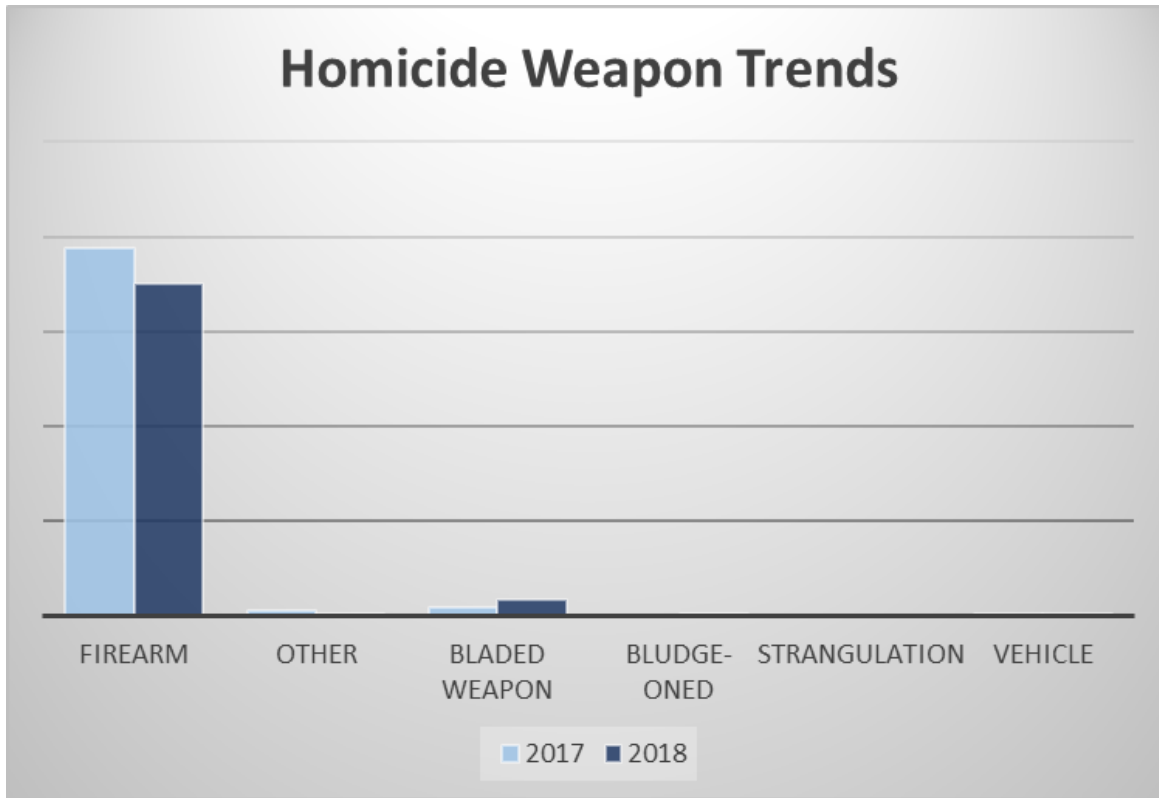

The Geography of Homicide

RECAP

- The number of homicides per District remains consistent from year to year within each District, with only small movements within the Districts.

Weapon Analysis

	2017	2018	% Change
FIREARM	194	175	-10.86%
OTHER	3	1	-200.00%
BLADED WEAPON	5	9	44.44%
BLUDGEONED	0	1	100.00%
STRANGULATION	0	0	0.00%
VEHICLE	1	1	0.00%

RECAP

- The graph and table above show City of St. Louis homicide trends as they related to weapons used from 2017 and 2018.
- Most of the homicides were committed with a firearm.

Gang Involvement: Homicide Victims and Suspects

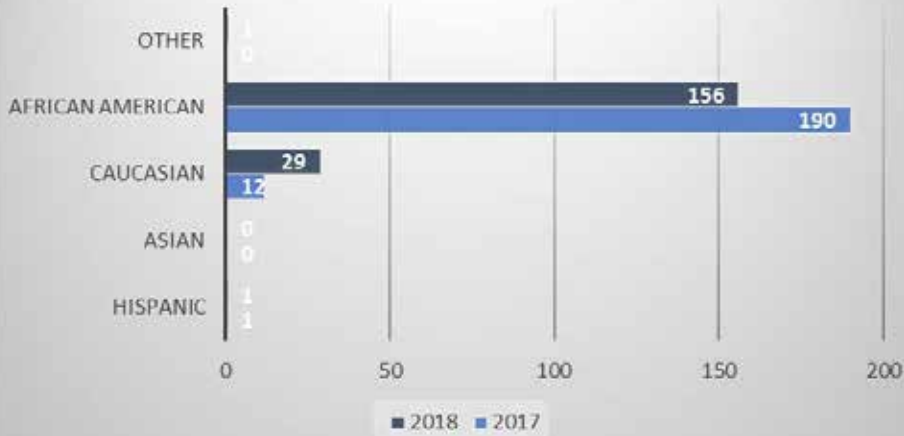

RECAP

- Known gang involvement is low for both victims and suspects.
- Gang involvement hovers around 10% for both victims and suspects and has for several years.
- This graph ONLY represents those that have a known and documented gang affiliation and does not include any informal or non- "gang" grounds or crews, which have become more common in recent years.

Victimology: Age, Gender, Race/Ethnicity, & Toxicology

Race/Ethnicity of Homicide Victims

Victims were largely MALE, with 84-86% of victims over the previous two years being MALE.

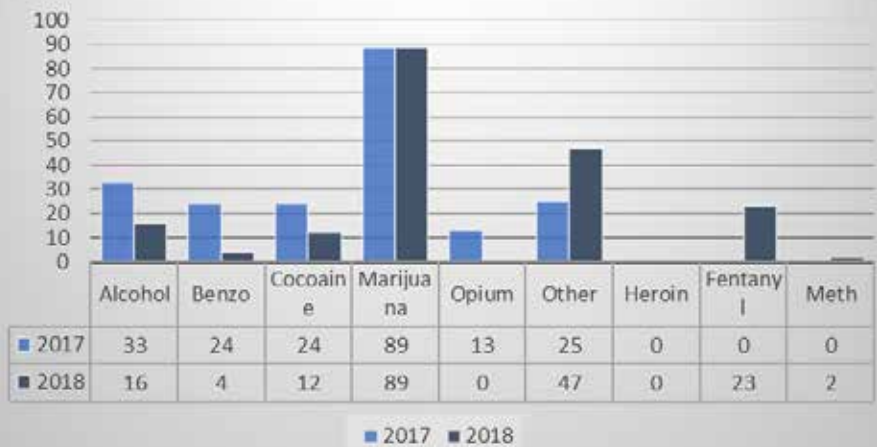

Victims were also largely City residents with 59% being from the City, down from 70+% in recent years.

As the tables show, victims were largely African American as well.

Average AGE varies widely. In 2012 it was 30, while in 2013 the average age was only 19. In 2018 it was 34.5.

46% of victims were under the influence, down a bit from recent years.

Toxicology of Homicide Victims

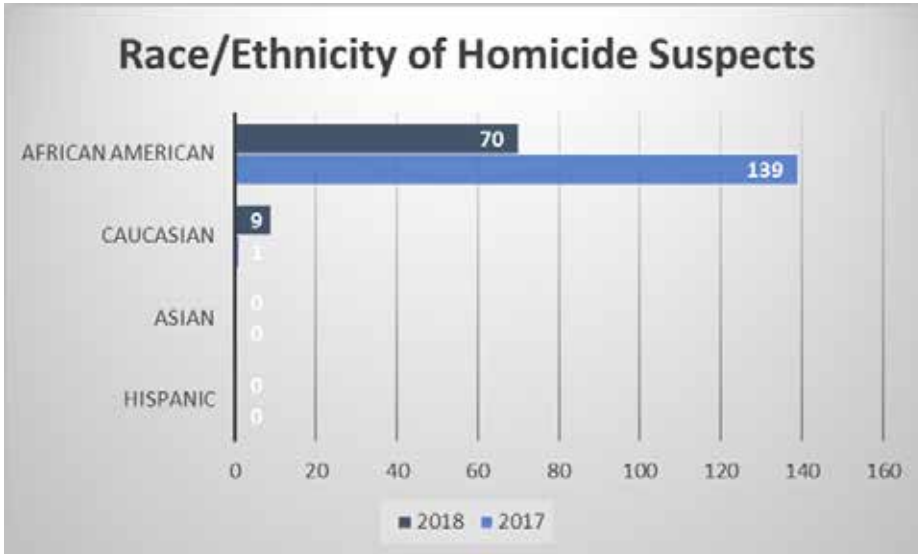

Victimology: Age, Gender, Race/Ethnicity, & Toxicology

RECAP

- Between 70 & 87% of homicide victims in 2017 and 2018 had a criminal history.

Suspectology: Age, Gender, Race/Ethnicity, & Toxicology

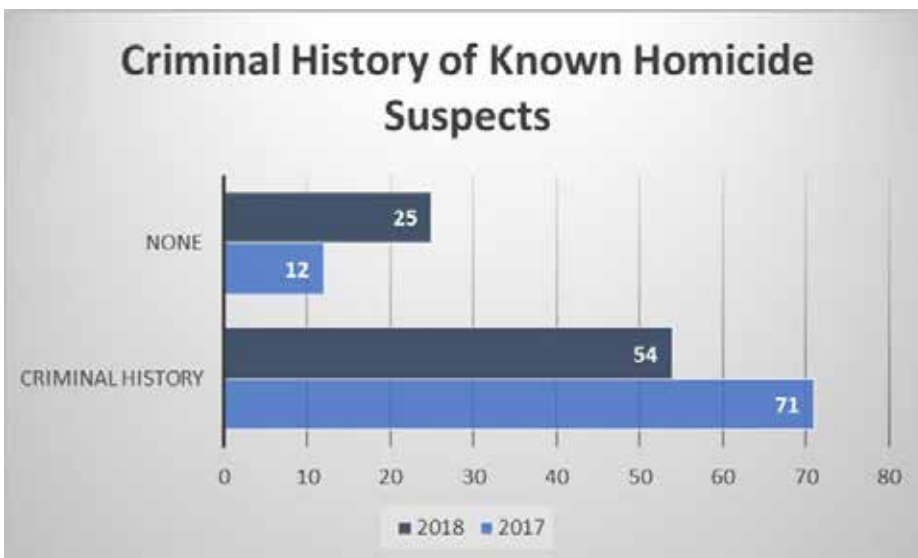

Victims were largely male, with 98% in 2017 and 87% in 2018 being male.

As the tables show, suspects were largely African American as well.

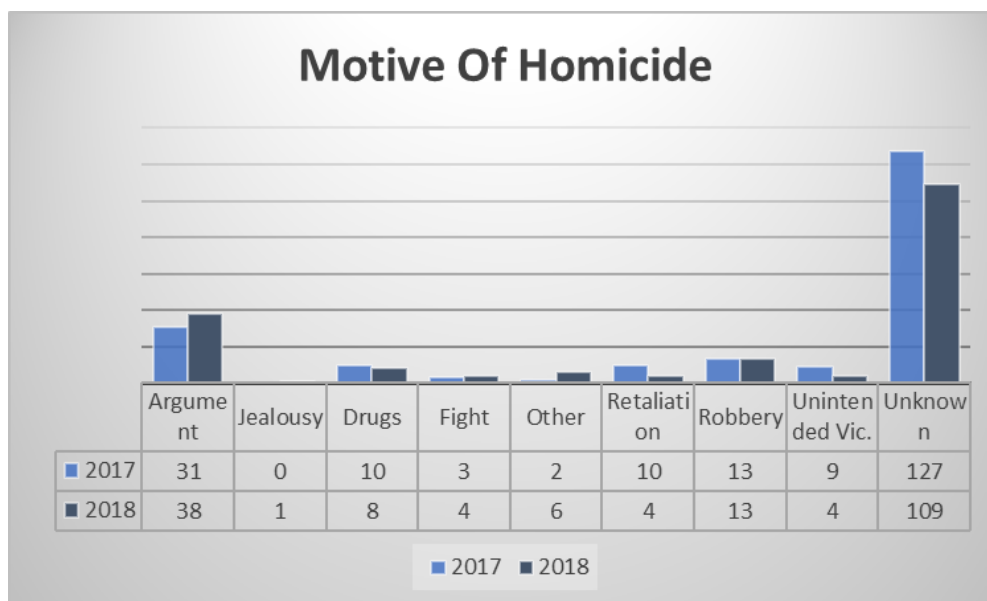

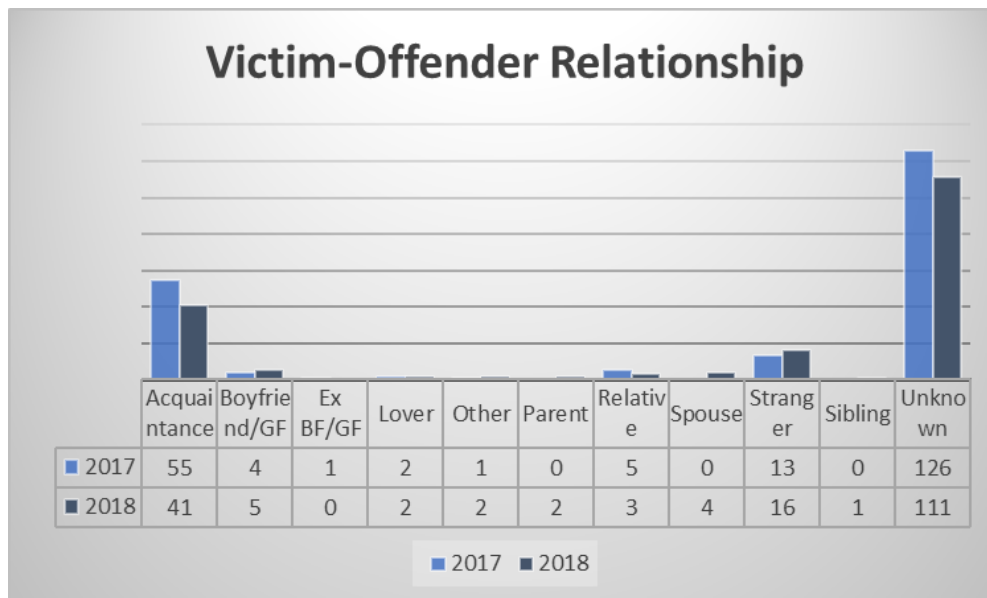

Average age doesn't vary as widely in suspects as it does with victims. In 2013 & 2017 it was 31, while in 2014-2016 the average age was 28. Average age in 2018 was 32.

Toxicology cannot be determined on Suspects as most are not arrested at the time of the incident.

Suspect criminal history was 91% in 2016, down to 85% in 2017, and further down to 68% thus far in 2018.

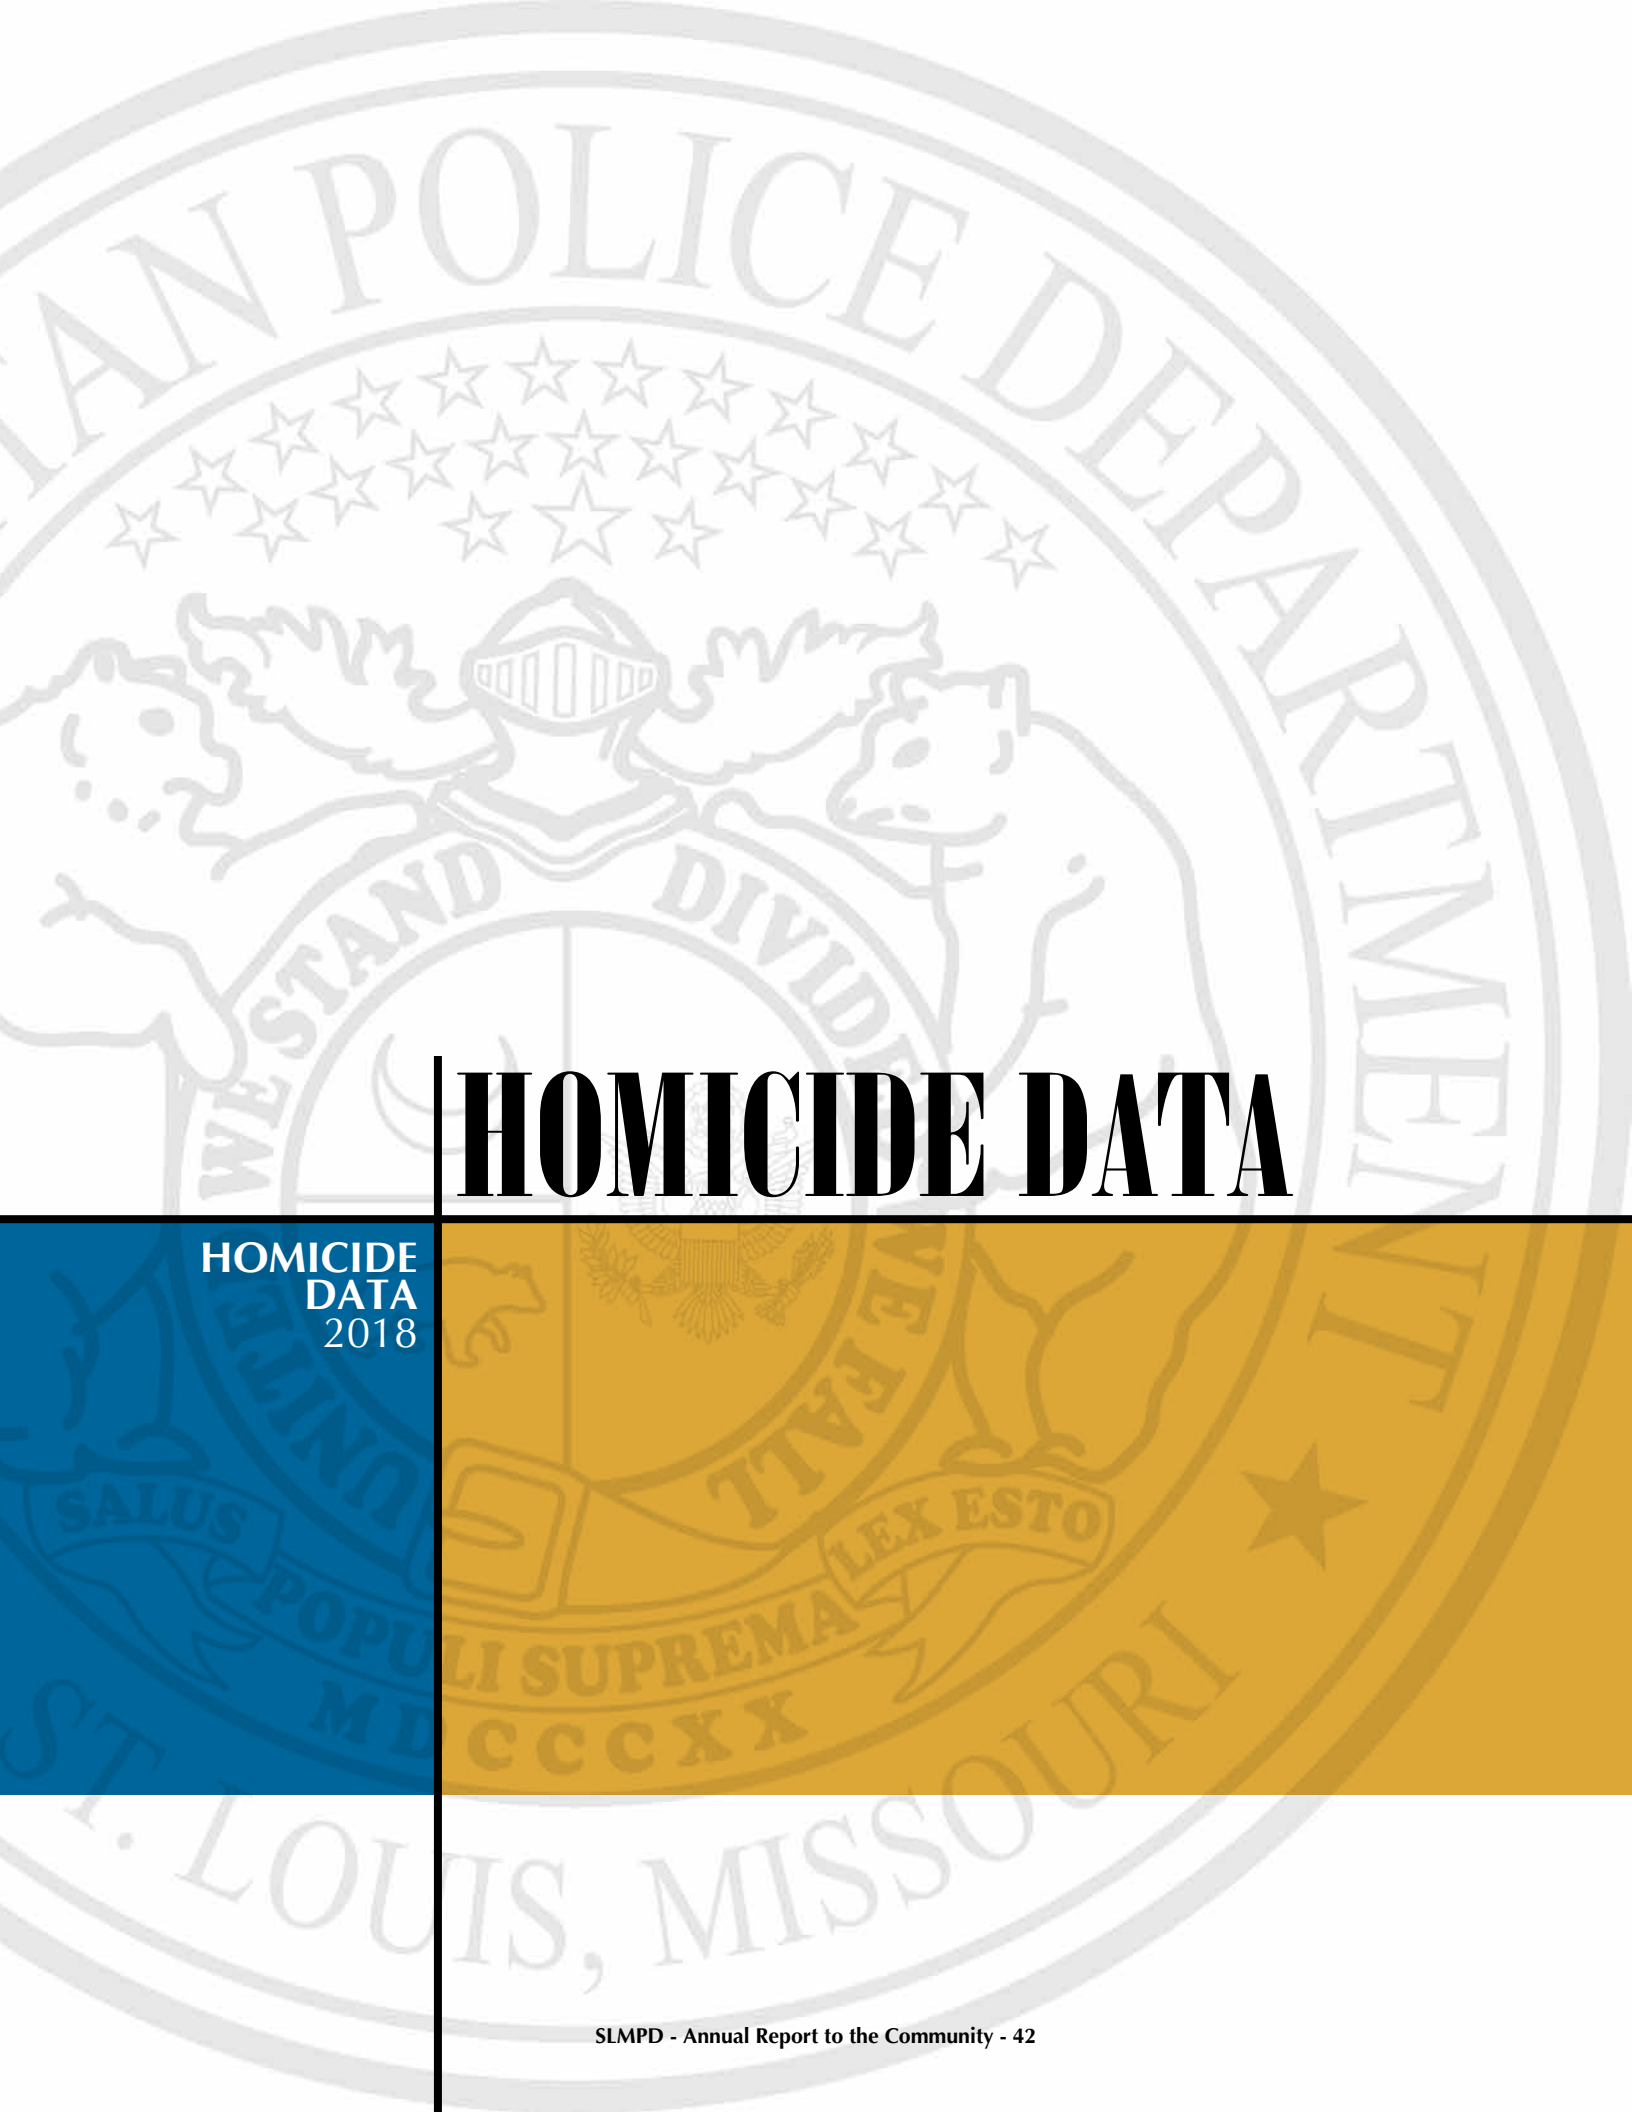

Victim/Offender Relationship & Homicide Circumstances

RECAP

- The graphs above show the relationship between victim and offender and the motive of the homicide, when known. Most are unknown as many are unsolved, and even when cleared, motives and relationships do not always present themselves clearly.
