METROPOLITAN POLICE DEPARTMENT, CITY OF SAINT LOUIS ANNUAL REPORT TO THE COMMUNITY

GOODD'S NO.

1PO

In January 2011, the Metropolitan Police Department, City of St. Louis and the Board of Police Commissioners purchased a building from Wells Fargo Advisors to replace the department's aging headquarters building located at 1200 Clark. 1915 Olive was purchased for \$2.7 million, an estimated \$5 million less than the building's market value.

The building was purchased using Asset Forfeiture funds—monies the court ordered be seized as proceeds of criminal activity.

In September 2011, the St. Louis Police Foundation presented the Metropolitan Police Department with a \$3 million donation needed for building renovations.

The 1915 Olive building is a 9-story structure built in 1990. The 143,024 square foot property includes a total of 350 parking spaces, with 284 of the spaces in an indoor parking structure and 66 additional spaces on two adjacent secured parking lots. The building formerly housed the offices of A.G. Edwards.

The architecture, engineering and general contracting of 1915 Olive was entrusted to the Lawrence Group, SSC Engineering and TRI-Co Inc. Commercial.

#### **MISSION STATEMENT**

The mission of the Metropolitan Police Department, City of St. Louis is to protect, serve and assist citizens when conditions arise that may affect the well being of the individual or the community. Cooperating with others in the community, officers will work to prevent and detect crime, protect life and property and achieve a peaceful society, free from the fear of crime and disorder. Members of the Department will strive continually for excellence and maintain the peace through service, integrity, leadership and fair treatment to all. As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force of violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself to my chosen profession...law enforcement.

#### **Core Values**

#### SERVICE | INTEGRITY | LEADERSHIP | FAIR TREATMENT TO ALL

#### **MESSAGE FROM MAYOR**

To the St. Louis Community:

The safety of St. Louis residents and visitors is my top priority. I am very proud of the tenacious work our officers do for our City morning, noon and night, day in and day out. Because of it, we have seen a significant decrease in crime over the past decade. But crime of any kind threatens the fabric of our community, so until everyone in every neighborhood can live, work and play in

a safer environment, we have more work to do.

Building and maintaining trust between the community and law enforcement is an essential part of reducing crime and creating stronger neighborhoods. Our SLMPD continues to make significant progress toward that goal, while increasing the use of technology in crime reduction operations. From license plate readers and the Real Time Crime Center to Little Libraries and additional foot, bike and mounted patrols, the Department is diligently working to enhance safety while bolstering community engagement. Part of those efforts include putting more officers in areas that need their attention the most, followed by other City services, like boarding up vacant buildings, removing excess refuse and debris and ensuring that all street lights are in working order to help address quality of life issues in our neighborhoods.

My Administration also is dedicated to ensuring that our officers receive the support, training and resources they need to do their jobs safely and effectively. That includes employing new technology, along with crisis intervention and civil disobedience training.

You will learn about these efforts and more inside the SLMPD's 2014 Annual Report, which not only highlights the Department's progress and initiatives, but also increases transparency and communication with the people the SLMPD serves. After all, it takes all of us working together to create a safer City for everyone.

Sincerely,

France S. Slay

Francis G. Slav Mayor

#### **MESSAGE FROM CHIEF**

Dear Citizens:

By any measure, 2014 will be remembered as a pivotal year in the evolution of American policing. A series of historic events, originating in the St. Louis region but with implications far beyond, have given rise to an unprecedented national conversation about the future of law enforcement.

The St. Louis Metropolitan Police Department is proud of its ongoing leadership in that conversation. In all the key areas under discussion - use of force, use of force investigations, de-

escalation, training against bias, civil disobedience response, and community outreach - our agency is working to stay ahead of, and not merely to keep up with important industry trends.

Indeed, one issue that looms over all others in this generation-defining event is: transparency. People have a right to know what their police department is doing. They have a right to ask questions, and get answers, from the professionals charged with protecting public safety. They have a right to learn about the details of specific incidents, and they have a right to access the kind of statistical data that makes up the big picture of agency performance.

That's what this report is really all about. It's about taking a year's worth of vital information from the life of a major city Police Department, and making it freely available to the citizens that Department is sworn to serve and protect. Some of the information can be expressed in charts or statistical tables, but some of it cannot. Not everything that counts can be counted. Not everything that matters, can be mapped. Wherever possible we have put things in quantitative or visual form, but some of what we report here takes the form of anecdotes, narratives and stories of success.

Recent history has taught the lesson loud and clear: organizations that dwell in secrecy sow distrust and eventually fail; but agencies that communicate effectively and operate out in the open, they build bridges to the community and ultimately succeed.

With that spirit of transparency in mind, read this report and think critically about it. Because the flip side of transparency is citizen engagement. By itself, the Department's willingness to share information is not enough. There must also be citizens who care enough to inform themselves, and play their part in the great conversation.

Thanks for being someone who does, and will.

Sincerely,

Colonel D. Samuel Dotson III Chief of Police

# news stories

#### **SLMPD** Transitions from Nine to Six Districts

On January 27, the department implemented major district boundary changes and transitioned from nine to six police districts in order to equally distribute resources among districts.

The police department followed a model of nine police districts for more than fifty years when the City's population was around 750,000, and the department employed more than 2,200 sworn police officers. In 2014, more than 318,000 residents live in the City and the department employs around 1,250 police officers. The transition to six districts and reorganization of the department will help better utilize resources.

Redistricting emerged out of a careful study of calls for service, data-driven analysis and a desire to better deliver services and reduce crime. Under the new patrol configuration, Districts 1 and 2 operate out of South Patrol, 3157 Sublette, Districts 3 and 4 operate out of Central Patrol, 919 North Jefferson, and Districts 5 and 6 operate out of North Patrol, 4014 Union.

#### Department Establishes New Force Investigative Unit to Investigate All Officer-Involved Shootings

The Force Investigative Unit (FIU) was established in September 2014 as the entity responsible for the criminal investigation of all officer-involved shootings. The FIU investigates all officer-involved shootings occurring within the City of St. Louis involving commissioned officers of the Metropolitan Police Department, as well as commissioned officers of any other jurisdiction.

Before the initiation of the FIU, the department researched and visited several other police departments to ensure the best policies and practices were implemented. The FIU consists of a lieutenant and four detectives dedicated solely to investigating officer-involved shootings. The team responses directly to the scene of each incident, allowing detectives to conduct a thorough investigation of the case. Under the new policies, once the FIU's investigation concludes, the case is then turned over to the Circuit Attorney's Office for review.

#### Metropolitan Police Department to Host Safety Outreach Summer Camp

In June, the department announced the inaugural session of its Safety Outreach Summer, a free summer camp for children 6-9 years of age. The camp offered three, one-week sessions with 15 spaces available per session.

The goal of Safety Outreach Summer is to teach camp participants valuable life lessons about safety while having fun. The children learn about a wide range of topics including Officer Friendly, fire and gun safety, home alone, street smart and bicycle safety, vehicle safety and proper use of 911. All safety lessons are taught by St. Louis Police Officers,

St. Louis Firefighters, SLMPD Citizens Academy Alumni, Missouri Regional Poison Control Center, St. Louis Recreation Center and more. Camp participants also got the opportunity to meet Police Chief Sam Dotson, Fire Chief Dennis Jenkerson and Sam Safety, the police department's mascot.

#### Hundreds of Metropolitan Police Department Officers Detailed to Forest Park for America's Biggest Birthday Party

The department had a contingent of a few hundred officers detailed to Forest Park and the surrounding areas to ensure the safety of the tens of thousands of people who attended this year's Fair St. Louis. Fair St. Louis festivities took place on and around Art Hill during the three-day event on July 3, 4 and 5.

Officers patrolled both the park and surrounding neighborhoods in marked police vehicles as well as on foot, scooters, golf carts, horses and bicycles. All in all, Fair St. Louis 2014 was a success due in part to the hard work and professionalism of the officers.

#### Opening of New Police Headquarters at 1915 Olive To Be Celebrated with March, Ribbon-Cutting and Public Viewing

On July 19, the department celebrated a new beginning with the opening of its new Police Headquarters, located at 1915 Olive, with a historic march, Ribbon-Cutting Ceremony and a public viewing of the building.

Attendees marched from old Police Headquarters, 1200 Clark to the new Police Headquarters, where

a Ribbon-Cutting Ceremony took place to signify the opening of the building. Chief Sam Dotson, Mayor Francis Slay, Richard Gray, Director of Public Safety, Douglas Albrecht, President of the St. Louis Police Foundation and State Senator Jamilah Nasheed addressed attendees and Mike Bush of KSDK News Channel 5 served as Master of Ceremonies. After the ceremony, the public was then invited to tour the building.

In January 2011, the department and the Board of Police Commissioners purchased a building from Wells Fargo Advisors to replace the department's aging headquarters building located at 1200 Clark. 1915 Olive was purchased for \$2.7 million, an estimated \$5 million less than the building's market value. The building was purchased using Asset Forfeiture funds—monies the court ordered be seized as proceeds of criminal activity. In September 2011, the St. Louis Police Foundation presented the Metropolitan Police Department with a \$3 million donation needed for building renovations.

The building is a 9-story structure built in 1990. The 143,024 square foot property includes a total of 350 parking spaces, with 284 of the

spaces in an indoor parking structure and 66 additional spaces on two adjacent secured parking lots. The building formerly housed the offices of A.G. Edwards.

#### **SLMPD** Commanders Complete Training Course on Implicit Bias

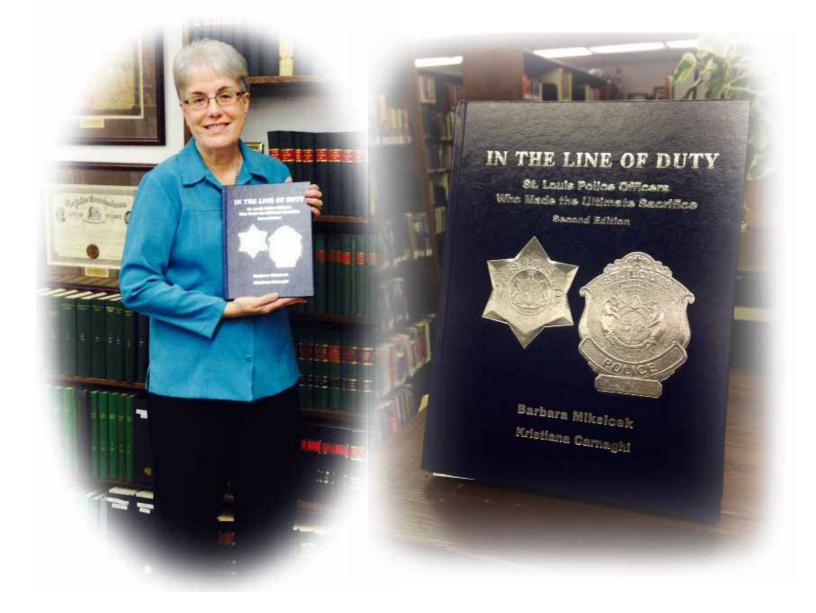

On October 21, the senior command staff participated in a training course which focused on recognizing and addressing implicit bias and its effect on the community. Implicit bias training aims to address sub-conscious attitudes, judgments or beliefs and helps officers to understand and confront these biases.

The purpose of the program was two-fold. First, the training raised awareness that implicit bias exists. Secondly, commanders worked to develop strategies and practical techniques to deter implicit bias and better serve the citizens of St. Louis. The training course was taught by Khatib Waheed, a St. Louis-based presenter who speaks on a variety of topics related to racial and social equality.

The second edition of In the Line of Duty: St. Louis Police Officers Who Made the Ultimate Sacrifice by Barbara Miksicek and Kristiana Carnaghi was published and made available to the public in March. The book tells the heroic stories of all 164 fallen St. Louis Police Officers killed in the line of duty.

In 1991, Barbara Miksicek, David McElreath and retired Lt. Colonel Stephen Pollihan coauthored the first edition of In the Line of Duty: St. Louis Police Officers Who Made the Ultimate Sacrifice, which recounted the stories of the 148 officers killed in the line of duty from 1861-1990. The second edition, published 23-years later, includes 16 more fallen officers. The stories of each officer's death have been updated with new information and new photographs.

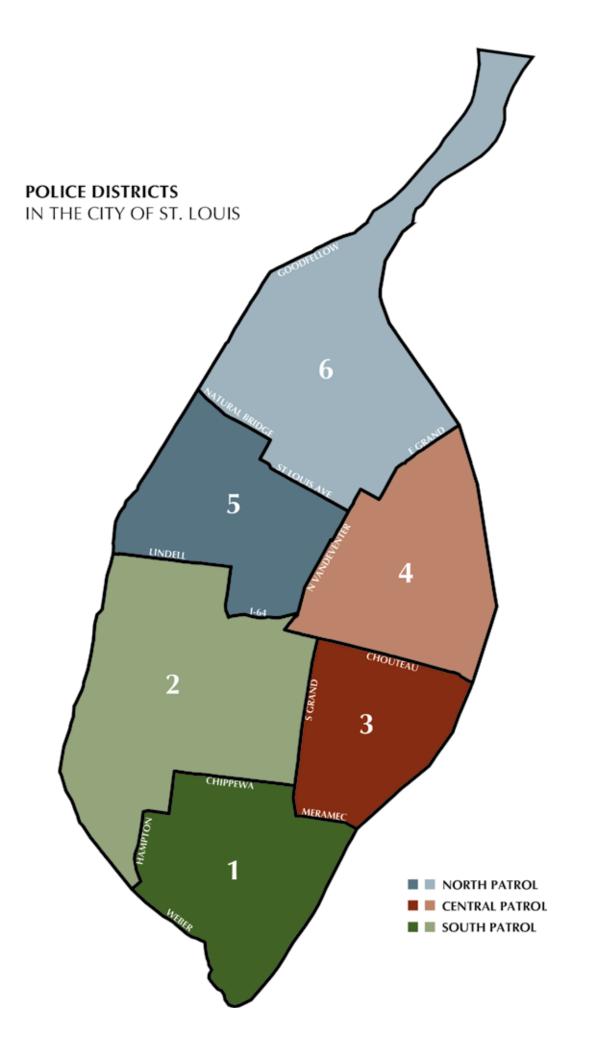

#### Officers Give Money to Unsuspecting Residents during Secret Santa Program

On December 23, the department launched Operation Secret Santa' for the first time. Throughout the day, officers surprised unsuspecting citizens with \$100 bills. Some officers chose citizens who they knew were in need, while others pulled over random vehicles or stopped citizens on the streets to deliver the gift.

The program was initiated after four St. Louis County families anonymously donated over \$36,000, which was split between the Metropolitan Police Department and the St. Louis County Police Department. The families stated they donated the money in response to the events that unfolding in Ferguson and wanted to do something to bring the community together.

#### HOMICIDE PRESENTATION 2014

## **Homicide Count:**

• 2014 Homicide Total – 159 (increase of 39, or 32% from 2013)

## **Homicide Demographics:**

- 86% of the victims were Male.
- 90% of the victims were African-American.
- 49% of homicide victims were aged 19 31.
- 44% of homicide victims were African-American males between the ages of 18 and 25.
- 144 (90%) of victims had a criminal history in 2013. (vs. 83% in 2013).
- 89% Of Known Homicide Suspects have an arrest history (vs. 45% in 2012).

#### **Geographic Areas Affected**

- 34% of homicides occurred in District 5. 26% of homicides occurred in District 6.
- 79% of homicides occurred in half of the cities 6 districts.

#### **Top Three Homicide Circumstances:**

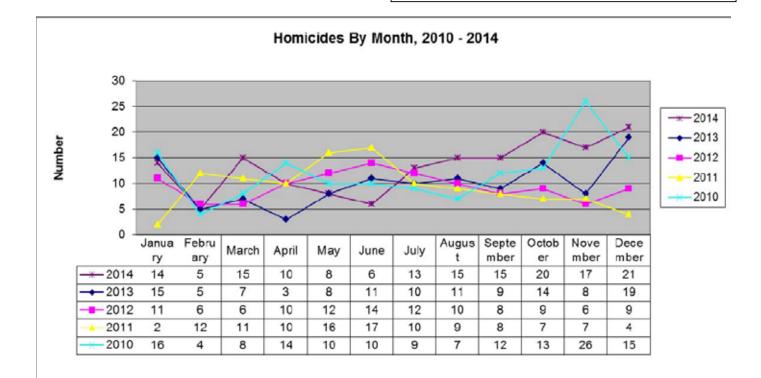

- Unknown—54.72% in 2014 and 17% in 2013
- Argument/Fight—19% in 2014 and 23% in 2013
- Robbery 6.29% and 5% in 2013
- Retaliation—5.03% in 2014 and 5% in 2013

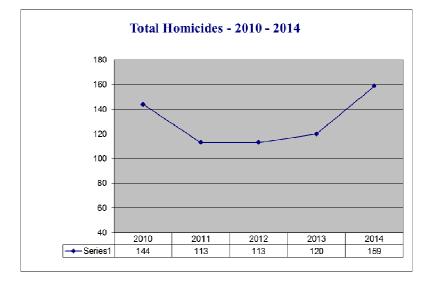

#### **Typical Homicide Summary**

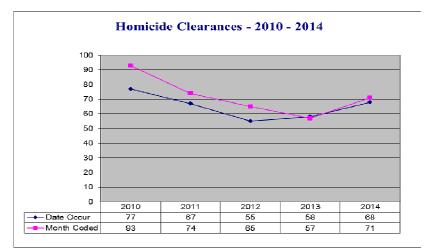

- Homicide Victim & Suspect
  - 0 Male
  - African American
  - $\circ$  17 29 years of age
  - has a criminal history

Month	2013	2014	% Change

November	8	17	113%
December	19	21	11%
Total	120	159	33%

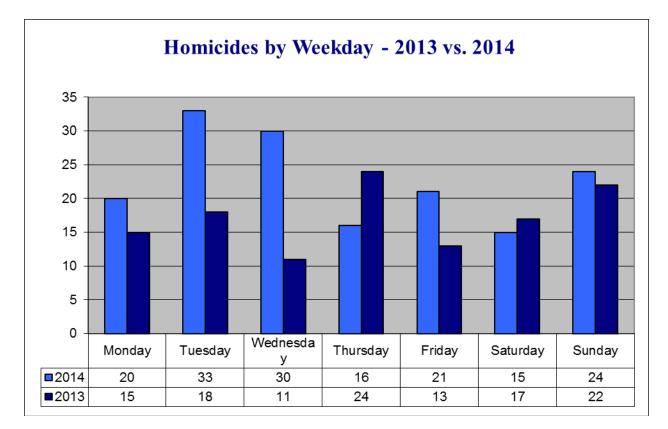

#### **Counting Homicides:** The F.B.I Uniform Crime Reporting Program (UCR) establishes all guidelines and procedures for the submission of crime data to the State UCR Program Coordinator (State Police). Murders are counted at the time that Homicide Investigators have determined that, after investigation, an intentional killing of a human being by another has occurred. Clearances of murders occur when at least one person suspected of committing the murder is taken into police custody for prosecution. Clearance is counted by the month that the suspect is taken into custody. While the official homicide statistics, shown in the table on this page, counts homicides by the date they were coded (for example, if a person is fatally injured in one year, but succumbs to their injury in the following year, the homicide is officially counted in the year of death, and not the year of injury), the remainder of statistics in this report will not reflect those numbers, but rather only reflect those murders that occurred within that calendar year. It is important to understand that UCR allows adjustments (e.g. clearances, reclassification, unfounded, etc.) from previous submitted months to be made the month that the adjustment becomes known to police.

- The graphs above show the monthly, and annual, City of St. Louis homicide numbers since 2010.
- Crime victims may succumb to their injuries months or years after the incident data. These figures include those victims who were injured in one year and died in another.
- While many crimes show seasonal changes, in the City of St. Louis, it does not appear that seasonality has direct effects on homicide.
- While we are able to look at homicides by both the date the offender was arrested, regardless of when the homicide occurred (Month Coded), and by the date the homicide occurred, regardless of when the arrest was effected (Date of Occurrence) the official statistics, per UCR rules, are the Month Coded numbers.

					%
	2013	%	2014	%	Change
Monday	15	13%	20	13%	33%
Tuesday	18	15%	33	21%	83%
Wednesday	11	9%	30	19%	173%
Thursday	24	20%	16	10%	-33%
Friday	13	11%	21	13%	62%
Saturday	17	14%	15	9%	-12%
Sunday	22	18%	24	15%	9%

#### RECAP

• No day was consistently the highest or lowest. Wednesday was a high day this year, but low last year. Sunday was fairly consistent in a middle-of-the-road kind of way, and Saturday was consistently on the low side.

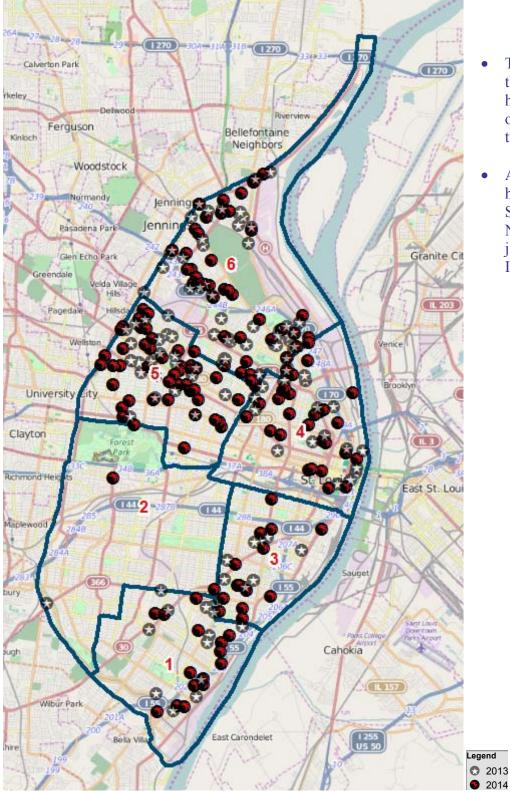

## **Counting Homicides: Temporal Analysis**

#### RECAP

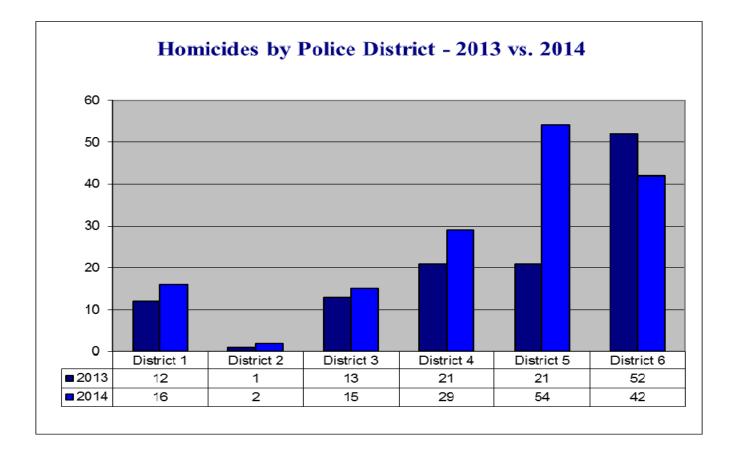

• While there was no sharp differences in day of week, there is a clear pattern when it comes to time of day, with the period between 9 pm and 3 am being the most likely hours for a homicide to occur, with 46% and 39% of homicides from 2013 and 2014, respectively, occurring within those time frames. If we include the time from 6 pm to 3 am, the total increases to 58% and 59%.

## The Geography of Homicide

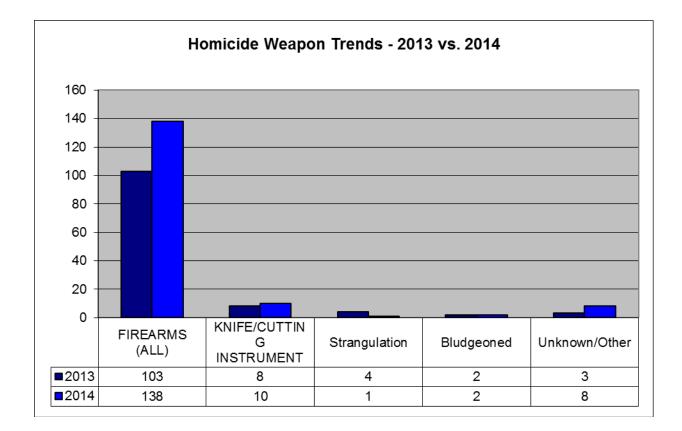

- The Map is an illustration of the locations where homicides have occurred within the City of St. Louis over the previous two years.
- As the map clearly illustrates, homicides within the city of St. Louis cluster to the Northern half of the city, and just West of I-55 and South of I 44 in South St. Louis.

## The Geography of Homicide

- Last year District 6 was clearly the highest homicide district. This year it seems that District 6 remains high in homicides; the 5<sup>th</sup> district caught up and surpassed the 6<sup>th</sup>.
- The number of homicides per District remains fairly consistent from year to year within each District, with the notable exception of the rise in the 5<sup>th</sup> for 2014.

## Weapon Analysis

			%
WEAPON	2013	2014	Change
FIREARMS (ALL)	103	138	34%
KNIFE/CUTTING INSTRUMENT	8	10	25%
Strangulation	4	1	-75%
Bludgeoned	2	2	0%
Unknown/Other	3	8	167%

- The graph and table above show City of St. Louis homicide trends as they related to weapons used from 2013 and 2014.
- The vast majority of weapons used for homicides were firearms (86% in each year).
- While 9 mm was the most popular caliber of firearm used in homicides for both years, it comprised only 47% of homicides for 2013 and 23% in 2014 (of note, the % in 2012 was 26%).

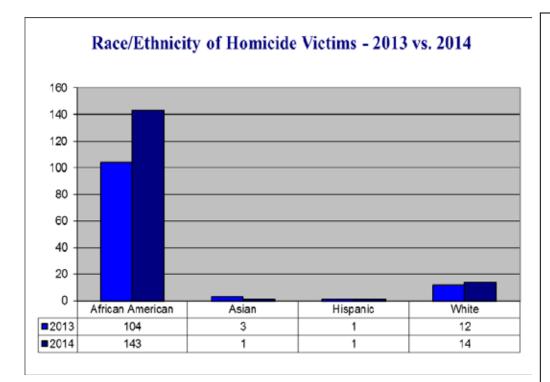

## Gang Involvement: Homicide Victims and Suspects

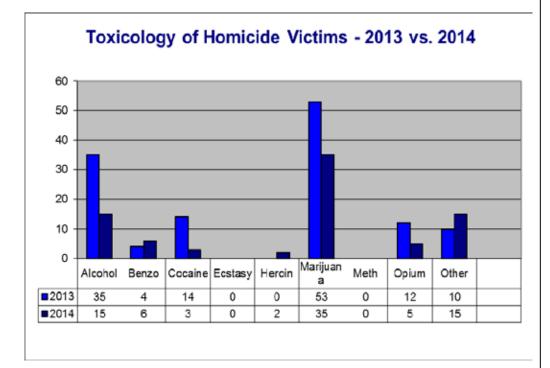

- Known gang involvement is low for both victims and suspects.
- Gang involvement ranged from 13-18% for suspects in this time period, and between 11-13% for victims.
- This graph ONLY represents those that have a known and documented gang affiliation, and does not include any informal or non-"gang" groups or crews, only those gangs and gang members identified and documented by police agencies.

## Victimology: Age, Gender, Race/Ethnicity, & Toxicology

Victims were largely MALE, with 86% of victims over the previous two years being MALE.

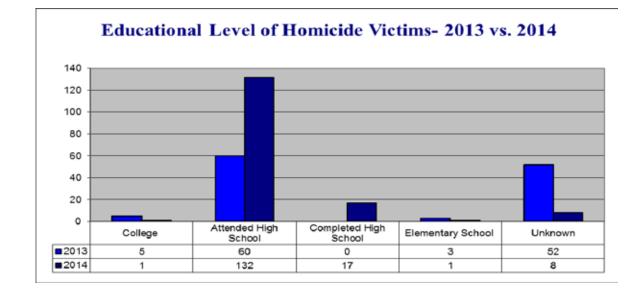

Victims were also largely City residents with 70 and 74% from 2013 and 2014, respectively, being from the City.

As the tables show, victims were largely African American as well. Average AGE varies widely. In 2012 it

was 30, while in 2013 the average age was only 19, and in 2014 it was 29. Only four ages had 10 or more victims, 19 (13), 20 (10), 25 (11), and 31 (10).

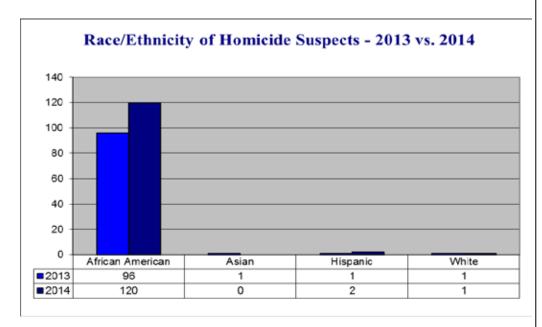

As to toxicology, the total positive is LESS than the sum of the parts as some victims were positive for more than one substance. In 2013 76% of victims were under the influence of some substance, while only 51% were in 2014.

- Over 82% of homicide victims in both 2013 and 2014 had a criminal history.
- Of those victims whose educational level is known, most have at least attended some high school, but have not gone on to college.

## Suspectology: Age, Gender, Race/Ethnicity, & Criminal History

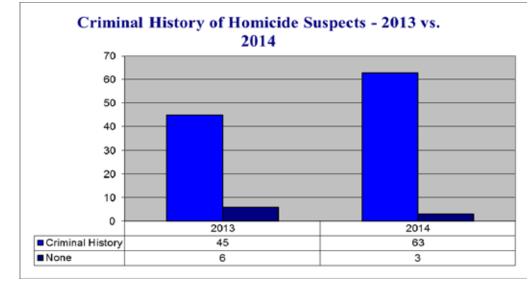

Suspects were largely MALE, with 96% in 2013 and 94% in 2014 being MALE.

As the tables show, victims were largely African American as well.

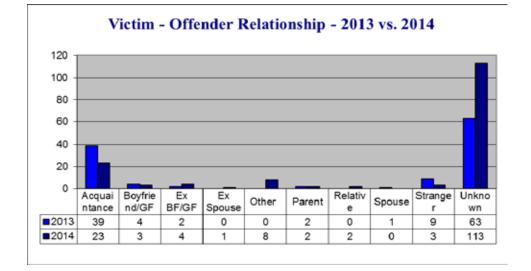

Average AGE doesn't vary as widely in Suspects as it does with Victims. In 2013 it was 31, while in 2014 the average age was 28.

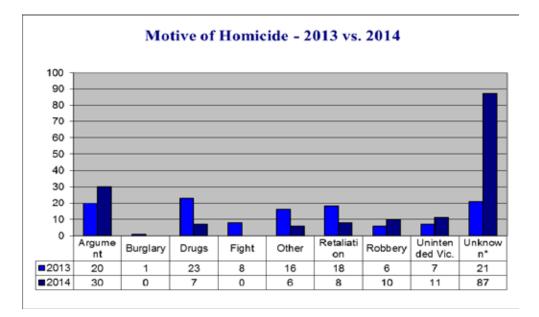

Toxicology cannot be determined on Suspects as most are not arrested at the time of the incident.

Suspect criminal history is fairly stable between years with 88% in 2013 and 95% in 2014 having a positive history.

## Victim/Offender Relationship & Homicide Circumstances

#### RECAP

• The Graphs above show the relationship between victim and offender and the motive of the homicide, when known. Most are unknown as many are unsolved, and even when cleared, motives and relationships do not always present themselves clearly.

#### **Explanation of Complaint Dispositions**

Sustained: Investigation disclosed sufficient evidence to support the allegation of the complaint.

Not Sustained: Insufficient evidence available to either prove or disprove the allegation.

Unfounded: The complaint was not based on facts, as shown by the investigation, or the incident complained of did not occur.

**Exonerated:** The actions complained of did occur, but the investigation disclosed that the actions were reasonable.

Withdrawn: Complainant withdrew complaint and the investigation was terminated.

**Mediation-Resolved:** Both parties voluntarily resolved the complaint through confidential/constructive mediation.

## BUDGETARY COMPARISON SCHEDULE Fiscal Year

July 1, 2013 -June 30, 2014 The Metropolitan Police Department of the City of St. Louis, Missouri (As of September 1, 2013, a City Department of the City of St. Louis, Missouri) Unaudited for the year ended June 30, 2014 (Dollars in thousands)
